Interior Design Services:

As I mentioned, I can fulfill many décor-related services.

Larger or other rug purchases come with furniture placement and correctly setting the rug on the pad.

I can do picture hanging which I would include with your purchase of a painting, or I can work with your pictures.

Prices of design service are flexible: they depend on the location and the time involved with the service. Fees vary from \$40 per visit up, depending on the service that you want. I guarantee that my prices will always be fair and reasonable, and will be discussed at the time of the requested service.
