- C16. Uzbeki girl serving green tea figurine \$ 600
Russian fine special porcelain. This is a very beautiful and high-quality statuette.
Her robe is painted with opalescent glaze, and her features are delicate and very well
done. Her necklace is fine gold, and there is gold in the trim of her hat, as well as small
amounts on the tea set, and around the base of the piece. Her clothes — especially her
4-sided cap — are true to life, as is even the pattern and color of the Russian tea set.
- C17. Rosenthal "fruit boat" c.1925 \$ 85
The gold edge is fairly worn, but the design is fine.
- C18. Rosenthal "MARIA" painted fruit decorative plate \$ 125
Around 1920 Rosenthal founded a secret formula for the bisque as well as a double
firing method at very high temperature, so that a chemical fusion occurs with the glaze,
design and the bisque. The ware is highly scratch resistant and, if not for the gold edge,

would actually be dishwasher safe. (With repeated use of the dishwasher, the gold edge would slowly be worn away.) This gold edge on this plate is worn, but there was glaze under. The condition of the painted design is fine.

C19. Rosenthal round cake plate, c 1920 \$ 45

This plate is ~ 11½” for a 9” cake or cookies. It is in excellent condition, including the gold edge.
